Khurram Shehzad

Frontend Developer

(92) 317-5520572
shehzadkhurram744@gmail.com

OBJECTIVE

Front End Web Developer with expertise in HTML, CSS, and JavaScript, specializing in responsive designs with Bootstrap. Skilled in dynamic features, animations, and jQuery, with proficiency in Strapi for backend development and API implementation. Familiar with WordPress Elementor.

EXPERIENCE

- Developed responsive and pixel-perfect designs using HTML, CSS, and Bootstrap.
- Implemented AOS animations to enhance user experience through visual elements and seamless transitions.
- Maintained a keen eye for detail, ensuring pixel-perfect design and optimal user interface.
- Applied JavaScript and jQuery to enhance website interactivity and implement dynamic features.
- Developed cross-browser compatible CSS using SCSS and customized Bootstrap functions for styling.
- Used BEM methodology for writing classes to improve code readability.
- Employed GULP to convert dynamic code into static HTML and CSS, enhancing efficiency in the development process.
- Worked on the Strapi framework for backend development, including API creation.
- Tested APIs thoroughly using postman to ensure functionality and identify potential issues.
- Implemented jQuery Ajax for seamless integration with APIs, enhancing overall website performance.
- Implemented GET and POST APIs and tested using Postman.
- Developed websites using WordPress with Elementor and Elementor Pro.

SKILLS

Front-end Development: HTML, CSS, Bootstrap

JavaScript: ES6, jQuery

CSS Preprocessing: SCSS, BEM methodology

CSS Animations: AOS Animations

Build Tools: GULP

Version Control: Git
