Summary

I am a passionate and dedicated Front-end web Developer with a solid foundation in web development. I have honed my skills through hands-on practice and created visually appealing and responsive web interfaces. My expertise includes HTML, CSS, Bootstrap, JavaScript, jQuery, and SCSS, and I also have experience with the latest development tools and approaches.

Skills

- Front-End: HTML5, CSS3, Bootstrap
- JavaScript: ES6, jQuery
- Version Control: GIT
- CSS Animation: AOS Animation
- CSS Preprocessor: SCSS
- Methodologies: BEM
- Build Tool: GULP
- Responsive Design: Media Query, Flexbox

Experience

- Creating layouts using various methods, including floats and clears, to achieve desired design outcomes.
- Developed calendar and demo Apple website using table-based layouts, focusing on structuring content effectively.
- Designed form pages of Facebook and Google clones, showcasing attention to detail and accuracy.
- Developed six responsive websites, ensuring optimal user experiences across devices using Pure HTML, CSS, and Media Queries.
- Utilized Bootstrap to create five websites, combining its features with customized designs for unique outputs.
- Used SCSS and BEM techniques to develop layouts, reducing development time and improve code readability.
- Automated workflow using Gulp.js, simplifying repetitive tasks and increasing productivity.
