OBJECTIVE

Frontend Developer with 2+ years of experience building responsive and dynamic web applications. Skilled in React.js and Next.js with strong knowledge of state management (Redux, Context API, React Query) and backend integration (Next.js API routes, Node.js, Express, MongoDB, Supabase). Experienced in authentication, dashboards, role-based systems, and payment integration. Seeking a React/Next.js developer role to deliver scalable, user-focused, and performant applications.

EXPERIENCE

Waywe Gaming

Feb 2024 – June 2025

- Built and maintained responsive websites using **HTML, CSS (Sass, Tailwind, Bootstrap)**, and **JavaScript**.
- Developed reusable **React.js** and **Next.js** components for scalable front-end applications.
- Implemented state management using React Hooks, **Context API**, **Redux**, and **Redux Thunk**.
- Utilized **custom hooks and advanced React patterns** (compound components, reducers) to improve reusability and maintainability.
- Implemented **server-side rendering (SSR)** and **static site generation (SSG)** in Next.js to improve SEO and performance.
- Created **dynamic routing and API integration** in Next.js for building scalable web applications.
- Integrated **REST APIs** and handled data fetching with **React Query (TanStack)** for real-time updates.
- Built authentication systems with **JWT** and **NextAuth** for secure role-based access.
- Designed and developed **admin dashboards** for content and data management.
- Worked with **MongoDB** and **Supabase** to manage dynamic data in full-stack projects.
- Integrated **Stripe payment gateway** into applications for secure online transactions.
- Optimized websites for cross-browser compatibility, performance, and user experience.

PROJECTS

[NextPress](#) | *Next.js, MongoDB, Context API, Tailwind CSS*

- Full-stack blog with **Next.js** and **MongoDB** implemented role-based authentication (JWT), admin dashboard for posts/categories, and **REST API** integration with real-time updates.

[Porto](#) | *React.js, Supabase, React Query, Tailwind CSS*

- Built responsive e-commerce site with product filtering, cart system, and real-time data fetching using Supabase + TanStack Query.

[The Wild Oases](#) | *Next.js, Next Auth, Supabase, React Query*

- A full-stack accommodation booking app built with Next.js, featuring **authentication, protected routes**, and booking functionality.

[Natours](#) | *Node.js, REST API, MongoDB, Express.js, PUG*

- Built a full-stack travel booking platform with **Node.js, Express, and MongoDB**, serving dynamic tour data through a REST API.
- Implemented **Stripe payment integration** to allow secure online tour bookings.
- Designed and managed **authentication, authorization, and role-based access** to handle users, guides, and admins.

SKILLS

Frontend: HTML 5, CSS3, Sass, Bootstrap, Tailwind, JavaScript (ES6+)

Frameworks & Libraries: React.js, Next.js, jQuery, React Query, Redux, Redux Thunk, Context API

Backend & Databases: Next.js API Routes, Node.js, Express.js, MongoDB, Supabase

Tools: Git/GitHub, REST APIs, Stripe Payments, NextAuth, JWT, Gulp, Postman
